

Winnipeg's Fort Garry Hotel First in Canada Rolls Out Revolutionary InnSpire

Winnipeg, Canada (2018-05-17) - The century-old [Fort Garry Hotel, Spa and Conference Centre](#) is one of Winnipeg's most recognizable landmarks. But although the building is steeped in history, the hotel is ahead of its time when it comes to exceptional guest experience, and is pleased to announce that it has recently upgraded to InnSpire's award-winning Sales & Entertainment Engine.

With InnSpire's industry-leading technology, Fort Garry's guests can wirelessly stream their own content from their handheld devices, no matter if it's through iOS mirroring, Android, Miracast or Chromecast. Easy to use and implement, no "apps" or downloads needed; everything is already available the guests' own phone or tablet.

An increasing number of premium hotels around the world are partnering with InnSpire in order to offer their guests their remarkable solutions. The Fort Garry Hotel is proud to be the first in Canada to offer such a convenience.

"We're thrilled to provide our guests with such a forward-thinking solution. We know our guests will love to use a service that allows them to go beyond just watching TV!"

Rick Bel, Managing Partner of the Fort Garry Hotel

Whether is it promoting the hotel spa or just finding all the latest information, guests at the Fort Garry can use their television to access all that the hotel offers. The InnSpire system provides a number of key benefits to hotels. The easy-to-use interface allows guests to browse and buy any of the hotel's products or services on any screen - from the TV in their room, their iPhone, iPad, or virtually any mobile device, resulting in significant increased streams of revenue.

The system also provides an option for the hotel to analyze and optimize the services they provide. With the Hotel Analytics Dashboard, hotel management can improve operations and give guests more of what they want with easily accessible data at their fingertips.

?There are a phenomenal number of exciting features available. And it's all accessed through our Android-based box through a simple install. All the modules are already in place ? we simply help the hotel activate or de-activate the features they require. It's such a small device that makes such a difference to the guest experience.?
